iZeeMasque Facelift

is a skin-tightening mask with a unique blend of soothing and revitalizing botanicals. It is unlike any other skin-tightening masque in that it not only works to quickly tone, tighten and nourish your skin, but it also tones and tightens the underlying muscles, giving you long-lasting results.

We all know how important it is to exercise and stay fit, but what about our facial muscles? Don't they need a work out as well? How would you like to naturally look 3-5 years younger in 30 minutes and 5 to 10 years younger in a few months without surgery or expensive skin-tightening treatments? You'd say, "That's impossible!" But not anymore!

iZeeMasque Facelift is truly amazing and the product works every time! Unlike other facial products, the results with **iZeeMasque** are accumulative. That means the more you use it, the less you need it. **A one-month supply in the beginning becomes a three month supply after 90 days.**

Other products can't say that. If you skip treatments with other products, you lose the results. A one-month supply of their product is still a one-month supply a year later.

Most facial products that promote skin tightening have no effect on the underlying muscles that the skin is attached to. So when your skin sags, it means your facial muscles are sagging, too. That's a big problem for other skin care products ... but not **iZeeMasque Facelift**. This unique formula affects the muscles under the skin to tighten them as well and causes a dramatic youthful change in your appearance.

Surgical facelifts and other conventional skin-tightening treatments such as lasers, radio frequencies, and light therapies require maintenance, are very expensive, and can be very painful. You'll be interested to know that **iZeeMasque** is a great maintenance program for anyone who undergoes plastic surgery and/or other skin-tightening procedures.

Why Choose iZeeMasque over conventional skin-tightening procedures?

- iZeeMasque is all-natural
- iZeeMasque is a relaxing, do-it-yourself at home product
